#### **Travel information**

Here you will find information about how to get to Stockholm from various airports as well as how to get around in Stockholm via public transports.

##### ***Getting to Stockholm from the airport***

Stockholm is served by four airports, and travel options depend on which airport you fly to. Below are some of the options available from each airport, sorted by price (high to low).

##### ***Stockholm Arlanda Airport***

The Arlanda Express train service will take you to Stockholm Central Station in 20 minutes. Single ticket 295 SEK, return ticket 570 SEK.

The pendeltåg (commuter train) from Uppsala to Stockholm operated by Stockholm Public Transport (SL) stops at Arlanda Centralstation (located between Terminal 4 and 5). Travel time to Stockholm Central Station is approximately 38 minutes. A regular public transport ticket is all you need to ride the commuter train. However, a 120 SEK fee is charged to get into and out of the Arlanda Centralstation.

Flygbussarna (Airport coaches) operates a regular bus service to Stockholm City / Cityterminalen (alternatively to Liljeholmen or Brommaplan). Travel time is approximately 45 minutes. Single ticket 99 SEK.

It is also possible to get to Stockholm City with a public transport ticket (SL) without going through Arlanda Centralstation. Take bus n. 583 to Märsta station (stops at Terminal 5, Sky city, Terminal 4, Terminal 2 and 3), then a pendeltåg (commuter train). Any train leaving from Märsta station will stop at Stockholm Central Station. Travel time is approximately 54 minutes.

Public transport ticket (SL) can be purchased at the airport. Single journey tickets (75 min.) can also be purchased with the SL mobile app (Android or iPhone). Stockholm Public Transport.

##### ***Stockholm Bromma Airport***

Flygbussarna operates a regular bus service to Stockholm City / Cityterminalen (alternatively to Brommaplan). Travel time is approximately 20 minutes. Single ticket 75 SEK, return ticket 150 SEK.

Nordic Comparative and  
International Education Society

Alternatively, bus n. 110 will take you to the Tunnelbana (metro) station Alvik, where you can take a green line train (direction Hagsätra, Farsta strand or Skarpnäck) to the city centre. Stockholm Public Transport.

#### ***Stockholm Skavsta Airport***

Flygbussarna operates a regular bus service to Stockholm City / Cityterminalen. Travel time is approximately 80 minutes. Single ticket 139 SEK, return ticket 278 SEK.

#### ***Stockholm Västerås Airport***

Flygbussarna operates a regular bus service to Stockholm City / Cityterminalen. Travel time is approximately 80 minutes. Single ticket 139 SEK, return ticket 278 SEK.

#### ***Getting to Stockholm University***

Stockholm University is easily accessible by public transport. You can get here by either Tunnelbana (red line, direction Mörby Centrum) or bus (n. 50, direction Stora Lappkärrsberget, stops at Central station and Odenplan). Either way, your stop is called "Universitetet".

#### ***Public transports in Stockholm***

Public transport ticket (SL) can be most easily purchased at ticket offices at Metro stations or at tickets agents displaying the SL logotype on flags or stickers (ex. 7-eleven or Pressbyrå). Single journey tickets (75 min.) can also be purchased with the SL mobile app Android or iPhone. SL travelcards might be your best option if you go on 3 or more bus/metro rides per day. You can easily plan your journey on SL's website as well as with the SL mobile app (Android or iPhone) or with Google Maps. Stockholm Public Transport.
